COLOR AND LIGHT IN ADVERTISING

Color and light are essential for advertising.
According to psychologists, light makes people act,
and different shades of lighting create proper mood.

We are bringing to your notice the **Glowing Stands**
really having unique properties:

Firstly, they **attract attention** due to the glow and bright design.

Secondly, they are **easy to assemble**.

Thirdly, they are **budget-friendly**.

PRO GLOWING STANDS

Glowing stands are effective means of attracting attention of potential customers at exhibitions, conferences or offices.

ATTRACT ATTENTION

In fact, the glowing stand is a lightbox, which certainly draws attention of every person passing by. This is because light influences people at the back of their minds, makes them act, and colorful images due to backlighting cause proper human response to advertising and form their emotions

EASY TO ASSEMBLE

Glowing stands are quickly erected structures. For example, a GS Pop-Up stand frame needs 10 minutes* to assemble without special training, and a GS Nano stand frame needs less than an hour. The structure has internal lamps illuminating translucent flexible plastic panels with advertising images on them. Customization is available.

BUDGET-FRIENDLY

In addition to visual appeal, our Glowing Stands have an attractive price. When developing glowing stands, we tried to make them affordable. We achieved it. So now, you can buy our Glowing Stand almost at price of renting standard exhibition equipment.

EVALUATE THE BENEFITS

GS NANO GLOWING STANDS

1. Strong advertising effect - the glow of the stand attracts attention of more potential customers.
2. Unique design and individual complete set.
3. Stand can be assembled as an erector set, so it is easy to install, and you can always buy additional necessary components and adapt the stand for any exhibition space without difficulty.
3. Reasonable price.
4. High quality and reliability of stands.
5. Small size of all CS NANO components makes the stand convenient for transportation, including by air.
6. Stands are delivered in bags facilitating transportation and storage.
7. Warranty for a structure of CS NANO glowing stands is issued for 5 years.
